Hi,

I am inputting some keywords and I don't see an option for German market.
Also, I noticed my values are different than Anton's in his video about demand (his Chandelier demand is 673,000, mine 201,000; trampoline his 2,240,000 and mine 368,000; standup desk his 14,800 and mine 246,000). Is the tool averaging this on monthly or weekly basis hence the discrepancies, or is my keyword tool broken since I only have 5 countries to choose from?

I will appreciate your help.
Thank you,
Andrea
