

Progress Notes

Molly Harding at 7/27/2022 9:00 AM

Andrea Brezanova is a 41 y.o. female presenting with

Chief Complaint

Patient presents with

- neck infection
Multiple bites

Has been going outside a lot. Noticed three lesions on her skin, two on her neck and one on right lower extremity. The one on her left posterior neck was coming to a head and she tried to apply pressure to release the fluid but it got worse, not better. She believes she was bitten by an insect but never saw one. A friend recommended a blue-green tonic which she has been applying.

Current Outpatient Medications

Medication

- doxycycline monohydrate (MONODOX) 100 MG capsule

No current facility-administered medications for this visit.

No Known Allergies
